Saurav Trivedi '25 Accepted to Columbia University Academic Immersion Program

The Columbia University Academic Immersion program is a highly selective program open to academically exceptional high school students, grades 9–12. Through the Academic Year Immersion program, high schoolers prepare for the college experience through exploratory online coursework and community activities over ten weekends in the fall and spring. As a program participant, students learn from scholars and practitioners who are experts in their fields, build a community of lifelong connections, participate in world-class co-curricular activities and differentiate themselves with a Columbia Certification of Participation and personalized evaluation letter.

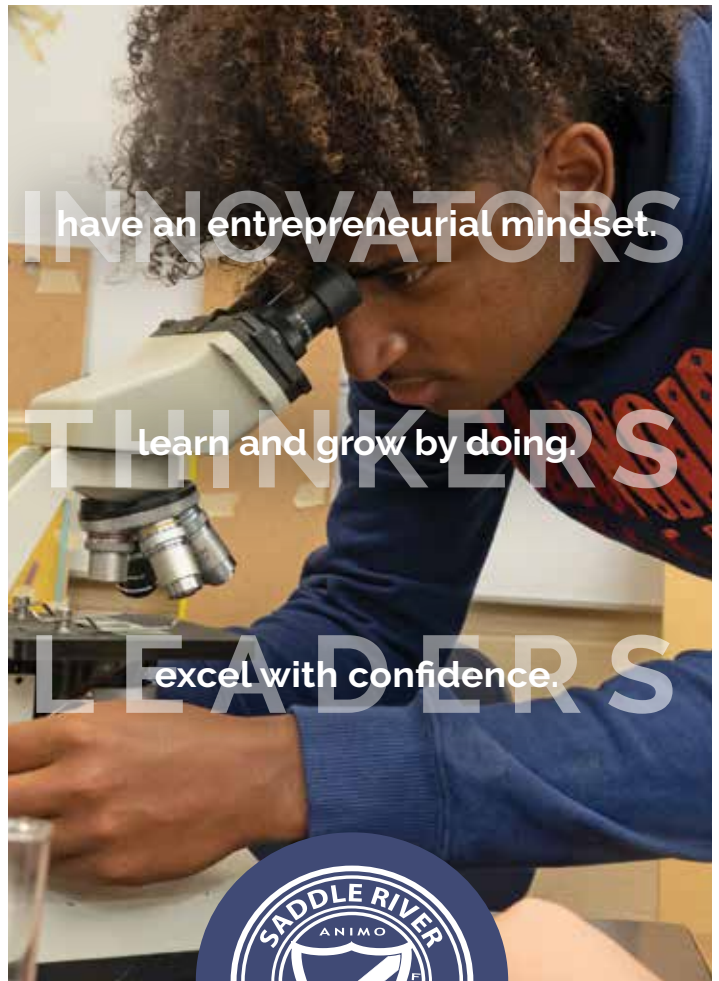

Saurav Trivedi '25 -- a lifer at SRDS who began in Kindergarten -- applied and was accepted to the highly competitive program for the year 2021-2022. In Saurav's own words: "I decided to apply to this program because it was academically rigorous and gave me the opportunity to be educated in various subjects by Columbia professors and experienced professionals in their fields. The program is really tailored for students who are above average academically, even though they did not require a specific GPA to apply. The application process required me to write an essay in response to a prompt that was provided, and submit a letter of recommendation from one of my teachers. I am hoping to gain valuable insight into various fields from this program. For the fall session, I am taking a class in marketing and I will continue to take other offerings through next summer. Grades are not assigned in the program; students who finish a course will get a participation certificate and an evaluation letter."

Saurav also says, "I feel that Saddle River Day School has helped me grow as a person and achieve my goals, both academically and personally. In lower school, I knew that this was the right school for me because my teachers pushed me to try harder and strive to achieve more and reach my potential. SRDS is committed to providing a strong education and more to the students. Even during the pandemic, they made sure to remain open and provide the best possible experience for their students, despite so many challenges. Not only were we able to reopen safely, we were also able to enjoy a very memorable year together.

I enjoy going to school here because of the outstanding teachers, the friendly environment, and the various opportunities at the school. At Saddle River Day, students are proud of their school. There is a 'friendship' between all of the students regardless of the grade. As a lifer, I can confidently say that my school provides important life skills necessary for success in high school, college, and beyond. In the coming years, I will be excited to see how SRDS builds upon their friendly environment and tradition of excellence."

Through our mission and core values, we cultivate an education that inspires students 'how to think, not what to think' allowing them to succeed in rigorous extra-curricular programs, at top colleges and in prestigious careers.

For further information on Saddle River Day School: www.saddleriverday.org

With 19 AP courses, internships, and time to collaborate with faculty, SRDS empowers students with the tools, space, and encouragement to find their passions and thrive.

Artfully uniting extraordinary homes with extraordinary people...

Sotheby's has been uniting collectors with works of art since 1744, where records are routinely broken and history is made. Over 278 years later Ellis Sotheby's International Realty was born to be the premier broker for extraordinary properties from the Hudson River to Tuxedo Park... and everything in between. Sotheby's sets record sales with art, Ellis Sotheby's International Realty holds the record for selling the most expensive home sales year after year.

... Nothing Compares.

GARRISON "Water Run," 15+ acres. 9,707sqft, 5br/6 baths. **\$3,745,000**

PATTERSON Little Pond, 175 acres w/16-acre glacial pond. **\$1,480,000** NEW PRICE

BETHEL Country home + 2 converted barns w/extra living space on 47 acres. **\$850,000**

WARWICK Contemporary colonial on 10+ acres. 3br/3 baths. **\$650,000** SALE PENDING

MONROE "Links Hideaway," colonial on 5 acres. 4,461sqft, 6brs/4.1 baths. **\$1,075,000** SOLD

Over 85 Years of Service

It is 1934, the middle of the Great Depression. Moviegoers flock to see It Happened One Night, starring Clark Gable and Claudette Colbert. The Dionne quintuplets are born. The United States Department of Justice offers a \$25,000 reward for John Dillinger. A young Murray Spiegel becomes the founder of his family legacy, SOS Fuels.

For more than 85 years SOS has embraced new technologies. Safely delivering cost-effective products and solutions for their valued customers.

The SOS Comfort Watch® Tank Monitor has been used for Propane Customers for many years with great

success. In 2020, SOS began offering a similar solution for Heating Oil customers as well. A first in the industry. The SOS Comfort Watch® Oil Tank Monitor allows customers to wirelessly monitor the amount of fuel in an oil tank using ultrasonic technology. Customers can monitor their tank levels using the free phone App.

It all began with the opening of a single gas station in Long Island. In the years to follow, SOS Fuels, now more commonly known as SOS Xtreme Comfort, has become one of the largest suppliers of Ultra Clean Heating Oil and Xtreme Clean Propane. Serving the great counties of Orange, Rockland, and Sussex. SOS Commercial Fuels has become one of the largest distributors of premium On & Off-Road Diesel for commercial businesses and farms in these areas. As always, we still cater to gas station owners with our wholesale division that stretches from Long Island to Albany and across to Danbury Connecticut.

SOS is among the first in the Heating Oil & Propane industry, to use the latest in wireless technology in their fleet. Improving delivery performance and reducing back-office paperwork. The result is a seamless network from the delivery truck to the office that allows greater accountability, control, and immediate availability of information. Routes are created and assigned visually to each truck. The dispatcher can

view the trucks and their course, speed, and location, as well as pending deliveries and inventory.

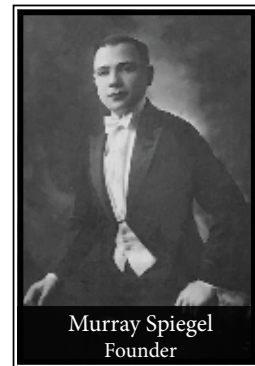

A few decades after its inception, SOS Xtreme Comfort began providing Heating and Cooling system repairs and installations. SOS service technicians routinely undergo training to stay in the lead when it comes to HVAC technology knowledge and skill. That way customers can be con-

fidant that SOS services are always up to date.

Even SOS's office staff and Customer Service Representatives, referred to as Comfort Specialists, undergo routine training to ensure they are giving the most informed and friendliest service they can.

For over 85 years the simple notion of doing right by the customer and not taking shortcuts has ensured SOS a solid foundation for decades to come. ♡

“Hard work, attention to detail, fair market price, and the understanding that your name is more important than profit for a short-term gain.”

Murray Spiegel
